→ Not so fast sailor! Do this first

- ✓ Use [Firefox + uBlock Origin](#) with these [optimized settings](#) (*Blocks advertisements & malware*).
- ✓ Change your DNS settings to one of [these great choices](#) (*Bypasses website access limitations*).
- ✓ Use a reputable torrent client with a kill switch, such as [qBittorrent](#) (*Allows torrenting*).
- ✓ Set up a VPN such as [Mullvad](#) or [ProtonVPN](#) (*Changes IP address to hide identity*).
- ✓ Bind your torrent client to the VPN (*Only allows torrenting when VPN is active*).

→ Bookmark this URL

- ✓ This **Megathread** is **often updated** and subject to rigorous quality control checks.
- Visit both our [r/Piracy](#) and [r/torrents](#) subreddits for all the sailing discussions.

→ Disclaimer

- In the Megathread, trustworthy links that were formerly safe may occasionally turn hazardous.
- The moderators and contributors do their best to maintain it, but always use care while sailing on the seas.

→ Greatest Treasures

All Purpose

- All Purpose sites for torrent search engines, aggregators & DHT crawlers in order to find as much public content as possible.

Anime

- Anime is a type of hand-drawn, animated work created in Japan, although it can also apply to other animation, such as Donghua.

Books

- Books, like manga, comics, and novels, are a recording medium for information that includes pages composed of text, images, or both.

Emulators & ROMs (Update in progress...)

- Emulators simulate the actions of gaming consoles, whereas ROMs are digital copies of video games extracted from a cartridge or disc.

Games

- Games require interaction with a user interface or input device, such as a controller or keyboard, to produce fun audiovisual feedback.

Mobile (Update in progress...)

- Mobile, or smartphones, are portable devices that integrate computing and telephone functionality into a single OS such as Android or iOS.

Movies & TV

- Movies & TV are works of visual art that employ moving pictures to imitate experiences, perceptions, feelings, and beauty.

Music

- Music is the skill of organising sound to produce any combination of form, harmony, melody, rhythm, or other expressive content.

Software

- Software is a collection of computer programmes along with supporting files and information geared more towards desktop computers.

Sports (Update in progress...)

- Sports refers to physical activity or game, generally competitive, that utilises one's ability and skills while entertaining spectators.

 Tools (Update in progress...)

- Tools for activation, userscripts, download managers, assistants, extensions and a plethora of other supplemental software.
